St Andrews

The **Institute for Environmental Studies** & the **Institute of Hydrogeology, Engineering Geology & Applied Geophysics** cordially invite you to a seminar

with **guest speaker**

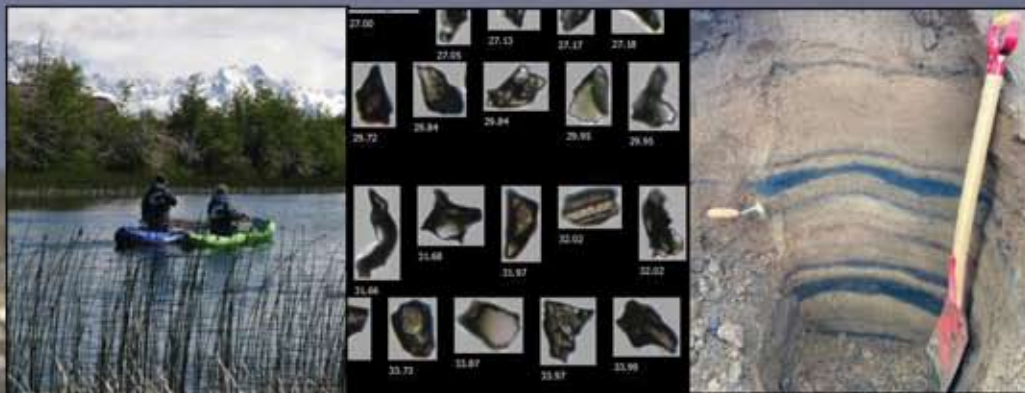

**Dr Richard Streeter**

School of Geography and Sustainable Development  
University of St Andrews, Scotland

“Using volcanic ash deposits to understand environmental changes”

**6.5.2026 14:00**

VP lecture room P06  
Albertov 6, ground floor

This talk will describe some of the ways volcanic ash (tephra) has greatly improved our understanding of past environmental change and also explore some promising new approaches
